Volunteer
BRUSH CLEARING

At the Historic Wayland Depot

Saturday, May 4, 9am - 4pm
Sunday, May 5, 1pm - 4pm

Please join us at the Wayland Depot, 1 Cochituate Road, to help remove brush, vines, and undergrowth along the preserved railroad tracks by the Rail Trail.

We will clear brush and debris from the historic foundations of the turntable, engine-house and water tank, and expose more of the preserved side track for Rail Trail users to see.

Stop by for a little or a long while. Wear your work clothes and boots, and please bring work gloves, pruning tools, and shovels.

For more information please contact Richard Conard at (508) 358-4597 or RRConard@earthlink.net.
